

# BLUE RIDGE APIARIES

We are 4th generation beekeepers who produce outstanding honey. Family owned and operated, we produce, extract, bottle, and market our products all in house. We offer a poly-floral blend of Wildflower Honey, mono-floral varietal honeys unique to Southern Appalachia, as well as Whipped Honey and Infused Honey. Our bee pollen is harvested from pristine locations throughout the Blue Ridge Mountains and foothills. We transform our beeswax into 100% all beeswax candles with no additives or dyes. Our honey is raw, unpasteurized and gravity strained to protect it's inherent goodness.
