

VYBES

For too long, we've ignored the mental toll of what living in this fast-paced world full of noise, distraction & uncertainty is doing to our well-being. There are more demands on us today than at any time in modern history, and it's wreaking havoc on our mind & body. Only recently, as the modern world has pushed us to our physical and mental limits, have we begun to question our lifestyles, including how the foods & beverages we consume influence our mind & body. We believe cannabinoids and adaptogens, natural plant derivatives, hold significant health powers and our beverages are crafted with their potential in mind.

JONATHAN EPPERS, Founder
