

Elijah's Xtreme® was created from a father and son's love of hot peppers and passion to create a more flavorful, thicker, hotter, hot sauce. Elijah's Xtreme Ghost Pepper Sauce officially launched in June of 2014! A few years later, after trying many different hot sauces, Elijah went to his father again and asked if they could make their own better tasting, hotter, hot sauce. It took the father and son team more than three years of trial and error to finally get their handcrafted recipe just right. Late in the summer of 2013 the two created the perfect balance of heat and flavor. They sent out over 100 samples and the feedback was great... everyone loved it, saying the same thing... "It's hot, but has great flavor!" With that, his father named their creation, Elijah's Xtreme! (Since Elijah wanted to be so Xtreme by eating the world's hottest pepper).
