Inspired by the flavorful and complex spices of traditional Indian chai, Tommy and Joel began testing and tasting their own twist on a recipe learnt from an old friend Tommy met years ago during his travels. Gram by gram, batch by batch, Tommy and Joel discovered the recipe which is now Asheville's favorite local chai; AppalaChai!

The Beam and Green families are working together, with a focus on Beef & Dairy, to support the local agricultural industry in the Carolinas and throughout the southeast. Our families promise to deliver wholesome and high-quality products, provide excellent service, and work tirelessly to preserve the small family farm community. By prioritizing agriculture and small-scale farming, our goal is to ensure the longevity of the family farm for future generations. We extend our deepest gratitude to our retail and consumer partners who join us on this journey. At Big Bottom Milk Company, our top commitment is to the quality of our milk. Our dairy farm is home to 70 cows that produce A2A2 milk. This means that our cows produce milk with a 100% beta-casein protein, which studies have shown to be easier for the stomach to digest, reducing the likelihood of any discomfort.

Black Powder Coffee

We are Dave and Melissa Stahlman - owners, roasters, and coffee lovers. After purchasing a 1 kg roaster in 2011, we have experimented with single origin coffee beans to determine the perfect roast level and process. We expanded to an LLC and increased our capacity and quality by the addition of a San Franciscan SF25 gas roaster in 2014. We know we have created something special with fresh micro roasted coffee with distinct flavors and quality based on feedback from our customers. Be assured the Black Powder Certified assures the beans were grown and harvested in an ecological manner with high respect for the workers.

Blue Moon was founded by Chris “Wishbone” Walker who has dedicated his life to the pursuit of fresh, delicious, flavorful food. He started his love affair with food before he was old enough to see over his mother’s kitchen counter and his passion continued to grow as he worked in restaurants as a chef, caterer, manager and owner. Molly joined the team and helped him to open his first retail location. Molly has a corporate marketing back-ground and spent a decade honing her skills with big national companies like Amazon.com and Pure Barre. With three young kids, Molly decided the time was right to partner with her Dad and help him take the business to the next level.

Nestled in the rolling hills of Virginia, a dedicated Amish family and dairy farmer, Noah, who has produced milk for 25 years has carved out a niche in the world of artisanal cheese-making. This farmer, often starting their day before dawn, combines traditional farming practices with a passion for high-quality dairy products. Their herd of cows, which are treated with the utmost care and respect, graze on lush pastures that are free from synthetic pesticides and fertilizers. This commitment to sustainable and ethical farming practices not only ensures the health of the animals but also contributes to the superior quality of the milk and cream used in producing their delicious cheeses. The process of turning this fresh, rich milk into cheese is both an art and a science. This Amish farm consists of 4 families that include, Noah and 3 brother-in-laws, one being a neighbor farmer. This Amish Dairy employs age-old techniques passed down through generations, along with modern innovations, to craft a variety of cheeses from Cheddar, Colby, and Mexican cheese that tantalize the palate. Each batch is carefully monitored and aged to perfection, allowing the flavors to develop and mature up to 3 years to peak maturity.

Most products are packaged in variable weights.

At Cugino Forno, we believe that pizza is more than a meal. It's an art and way of life for us. We are three cousins from a small town in Turkey. Food plays an important part in our culture in the way it is prepared, served, and shared with our loved ones. The art and craft, as well as the tradition behind true Neapolitan-style pizza struck a cord with us, as it represents everything we believe in when it comes to cuisine. We spent years researching Neapolitan style pizza, including long beautiful months spent in Naples learning from the world's greatest pizzaiolos ,where we picked up expert technique, embraced ourselves in the Italian history, found the importance of quality ingredients, and so much more.

Joseph, Yilmaz, & Adam

darë VEGAN CHEESE

Darë was brought into existence by chef, Gwendolyn Dare Hageman, who spent most of her life as an omnivore inspired by her chef Dad. The two had a snack ritual involving a block of cheese, a pack of crackers, and a knife. When Gwendolyn decided to pursue an animal-free lifestyle, the thought of losing her favorite snack sent her searching high and low for a sufficient substitute. Time and again, she came up empty, thus beginning her journey in creating the taste she craved.

FORX FARM

Forx Farm is a family owned and operated business, located in the beautiful rolling hills of Upstate South Carolina, near Lake Hartwell. After we, Tammy and Ron Lubsen, immigrated from The Netherlands to the USA in 1980, we settled down in the upstate.

Our cheese is hand made in small batches with modern equipment, but using authentic recipes. We make 7 flavors of Artisan Gouda, as well as Leyden, Parmesan and Gruyere, all from raw milk. We use raw milk because it retains its natural nutrients

Cheese made from raw milk has a fuller, richer flavor. Raw milk cheese must ripen a minimum of 60 days, at strictly controlled temperature and humidity. We age our cheese between 2 and 30 months, depending on the taste we wish to achieve.

Our History

Homestead Creamery is a small, locally-owned dairy processing plant nestled among the beautiful Blue Ridge Mountains in Burnt Chimney, Virginia. With dreams of preserving the family farm for future generations and marketing product directly to consumers, two local dairy farmers combined efforts. In cooperation with a few local businessmen and their joint endeavors, these dreams became a reality. Homestead Creamery opened its doors for business in January of 2001!

As a little girl, I fondly remember long, hot summers spent ankle-deep in the rich dirt of my Nana's garden. When lettuce season arrived, I especially looked forward to the yummy greens we would gather and eat with Nana's special homemade vinaigrette dressing. No meal was complete unless there was a bowl full of beautiful veggies tossed with one of her famous dressings. Now as an adult, I mostly get my greens from the local farmers' market, but I still continue the tradition by serving my sweet Nana's bottle of bliss with my own little personal twist! So if you're like me, a mother on the go wanting to provide something healthy and fresh for your family, I am proud to pass on to you what my family has enjoyed for many years.

Enjoy and God bless!

Carmella, Owner & Pasta Maker at Melina's Fresh Pasta, grew up in a traditional Italian-American family in Syracuse, NY (Go Orange!). The first to be born in the United States, she longed for a connection to the country every other member of her family was from. After years of watching her mother, Giuseppa, make homemade Italian food from what her father, Giuseppe,* grew in his garden, she wanted to share the Italian tradition of food made from scratch with care and served with love to family and friends. Upon arrival in North Carolina Carmella noted a lack of authentic Italian food in the area (and a lack of Italians!). So in 2010, she travelled to Bologna, Italy to supplement the Southern Italian cooking lessons of her mother and learn the Northern Italian tradition of fresh pasta making.

Hong ("Hongie") Schulte is from Sichuan Province, China, a region known for rich agriculture, beautiful mountains, and spicy food. Hong met her husband and business partner, Stuart, while they were college students studying in Chongqing in the late 1980s. Together they have lived and worked in China, Arizona, and Ohio, before finally returning to Stuart's native Moore County, North Carolina in 2007. Hong has always enjoyed cooking dumplings for friends and family both in China and the USA. This became the idea for her new company, Moore Dumplings. Hong brings her love for her famous hometown cuisine, such as Mapo Tofu and other Asian flavors, like Japanese curry in her vegan potstickers. Moore Dumplings are a fusion of unique tastes wrapped in a convenient and familiar package. These potstickers are made in small batches and wrapped by hand. Hong says they are best when pan-fried or air-fried but are also delicious boiled and steamed.

Bob Rust bought the scooter back in the late ’40s and sold hot dogs in Shelby, NC. Fast forward 75 years and his grandson brought it back to life to sell burritos. We named the company Robert Rust Foods to honor the legacy of our grandpa, who was an honest, loving, and caring man who lived to serve others.

In 1995, Gary Mac Herring, Jr. decided to open up a Hawaiian Shaved Ice stand in his small town of 600 people. When customers began to ask for full bottles of syrup flavors to take home, he had the idea of selling syrup online. Mary Mack's, Inc. is now the leading shaved ice and snow cone syrup manufacturer. Our Hawaiian Shaved Ice brand syrups are made in our state-of-the-art North Carolina facility.

Fast forward to 2020, Gary and his team (along with the rest of the country) saw a dire need to help bring people together and felt compelled to act. They had an amazing recipe for a lemonade slush and saw the opportunity to bring it to market as a brand to accompany marked moments that make people feel true happiness. If Scoot Frozen Lemonade has the power to help bring a feeling of fun and utter joy, Gary and his team wanted every part of doing that.

The Scoot team is just getting started!

STOLTZFUS MEATS

WHERE DO THESE DELICIOUS HOMESTYLE MEALS COME FROM?

Stoltzfus Kitchen

Stoltzfus Kitchen is a small family-run business that started in November of 2015. Wilmer Stoltzfus began making homemade meals as a business in a certified USDA kitchen in the basement of his home. Though his sales have grown exponentially since then, that's still where they make all of their meals today. Wilmer, along with the help of his family makes an average of 480 meals per day from 7 a.m. to 3 p.m. Most of the recipes that Wilmer uses for his homestyle meals are old family favorites that he created on his own. . .

People always ask us how or why we started Sweet Girl Cookies. It all began in 2014 when Alec retired and then decided he was not a fan of retirement! With a love for baking, a great Chocolate Chip cookie recipe of Nancy's and a then-11 year old daughter, Zoe, affectionately called "sweet girl," Sweet Girl Cookies was launched. As we've grown, we have gone from Alec as the baker, sales rep and chief dishwasher to Nancy devoted full time to the business with an outstanding production team. We are so grateful to all our customers for their love and support! Alec & Nancy Felder

Whoomus Foods is a new hummus brand that is traditionally inspired from Mediterranean flavors and locally crafted by our founder and chef. Based in Charlotte, North Carolina, our founder created this company to share a family recipe he brought to the United States from Egypt.
We were inspired to create Whoomus Foods because the hummus of today has drifted from the traditional recipe. Whoomus Foods wants to reintroduce you to hummus and give you an opportunity to fall in love with a new, exciting taste. Our hummus pairs well with pita, sandwiches, and veggies. We encourage you to try our hummus and let us know what you think. Thank you for supporting our minority-owned business!

Meet the Caribbean Colonel

In 1968, Dr. Tony Martin, a Doctor of Naturopathy in nutrition and born in British Guyana, immigrated to the United States, bringing with him secret recipes handed down to him through generations of his family. He moved to Charlotte, NC in 1986 and opened a small cafe with a menu straight from the heart of the Caribbean. It is named for his mother, Ann, and himself, Tony.

Anntony's Caribbean Café has won many awards, received favorable reviews and accolades for its innovative style and tasty island cuisine. Rotisserie chicken marinated and seasoned for an authentic Caribbean flair has made our restaurants famous. This flavorful fare caused such a stir, Dr. Martin had to create his unique and flavorful sauces and dry spices for retail sale.

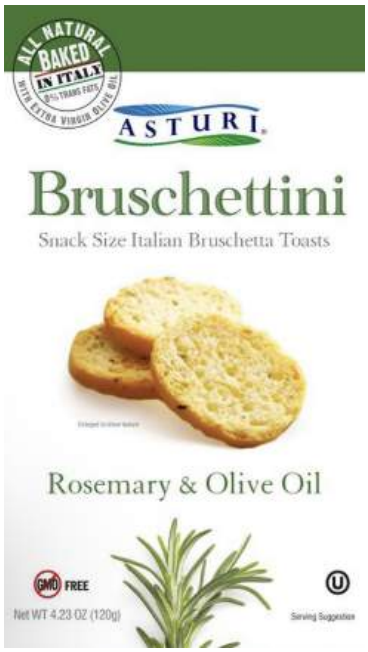

These sauces and dry spices/rubs are so unique and versatile they can be used for marinating, dipping, topping, in beverages or just boasting to your guests that you've discovered a new secret recipe.

Founded by Michael Robinson II of Winston-Salem NC, Bingo-Bango Fresh Fruit Soda Co. was created from a phrase often used by his late grandfather. (Pictured) That phrase "Bingo-Bango!" symbolized the flavor, creation, or sound of something amazing.

Heavily influenced by his Creole New Orleans lineage, and with the beautiful inspiration of his grandfathers love for music, the arts, and craftsmanship, THE BEGINNING Michael began work on his first batch of craft soda in 2016 using the exact juicer given to his mother by his grandfather!

We are Dave and Melissa Stahlman - owners, roasters, and coffee lovers. After purchasing a 1 kg roaster in 2011, we have experimented with single origin coffee beans to determine the perfect roast level and process. We expanded to an LLC and increased our capacity and quality by the addition of a San Franciscan SF25 gas roaster in 2014. We know we have created something special with fresh micro roasted coffee with distinct flavors and quality based on feedback from our customers. Be assured Black Powder Certified assures the beans were grown and harvested in an ecological manner with high respect for the workers.

The Triad is steeped in history and rich in tradition. From the early Quaker long rifle makers to the laborious BBQ pitmasters, many came to our area to hone and perfect their craft. At Black Powder Smokehouse we honor those who came before and the community that surrounds us. In this 4k, 5G, overnight society we pride ourselves on cooking "low-n-slow". We take the time to cook from scratch, say hello when you stop in, and say thank you when you leave.

Traditions aren't made overnight - they take years of consistency and craftsmanship to develop. At Black Powder we hope to create a tradition that spans generations and a place our community can be proud of.

Blessed by Elderberries

What they don't tell you when you become a mother is how easy germs spread. How are they the only things that kids even share nicely?! They made us miserable. We were constantly catching every bug out there and then taking 2 weeks to get over all of them. I felt like we never left our house and I was a constant nurse maid! We found some all natural ways of boosting our immune system, one of those was elderberry syrup, and we were hooked! We haven't been to the doctor's office, except one time, in over 2 years now! It's been a huge blessing to incorporate God's medicine into our lives and one that I hope to pass on to you!

Bohica Pepper Hut was founded based on our love for Super Hot Peppers. Jason Tate, owner, founder, farmer, etc...started his first Super Hot pepper plants about 6 years ago. He now currently is growing over 250 varieties in his garden and all over his property. He even finished a Greenhouse "The Bohica Hut" in the fall of 2016 to house his best producing plants over the winter. Our goal is to provide a large variety of pepper seeds, fresh and dried pepper pods and our newly developed line of Hot Sauces, to customers all across the United States. Chapel Hill Toffee

Mom's homemade toffee was always a special treat for Mark Graves growing up in his family home in Chapel Hill, North Carolina. In 2006, after years of perfecting her secret family recipe, Mark's mother, Karen Graves, decided to turn her favorite hobby into her own home-based business. Chapel Hill Toffee begins with a layer of traditional English toffee spread thin and cut by hand into bite sized squares. Each piece is coated on both sides with a top-secret blend of dark chocolates. The smooth layers are finished off with the sprinkling of pecans that gives Chapel Hill Toffee its iconic look and distinctive southern twist!

Country Fresh Fudge

The Finer Fudge

Back in stock 3-15

Tennessee

My wife Pamela and I started Country Fresh Fudge in 1989, next to the foothills of the Smoky Mountains, in the small Tennessee town of Oliver Springs. At that time we owned two convenience stores and delis where we made and sold fudge to our customers. We were constantly told that our fudge was much better than the other fudges people had tried in Gatlinburg, Tennessee. It was at that time that we realized that we could offer our customers the very finest product of it's kind with an extremly innovative fudge vending program. We understood that for some people, making their own fudge was not an option, so we offered a product that was not only superior, but easy to sell.

Since then, we have strived to create the perfect fudge, changing our recipes numerous times until they were perfect and to this day as technology changes so do we. We are a company built on values and a reputation that honesty before profit is always the way to go. These are values I learned as a child working in my mother's bakery. I learned that the customer is what you're here for. If it's not right to them, then it just isn't right. Our fudge is made from the recipes that we developed unlike some others on the market.

We are a company that understands the value of our customers. On November 6, 2003 our plant, offices, and warehouse were all destroyed by fire. The only thing that was saved before the fire consumed everything was our file server and one forklift. However, we knew that this time of year was the busiest time for not only us but to our customers. So, we felt obligated to hurry back into production. On December 1, 2003 at 6:30 a.m. the first batches of fudge were put into production. Without our loyal customers, dedicated employees, understanding vendors, and our supportive community we surely would have faltered.

Since that time, we have been blessed to grow our business and serve even more fine customers. We continually strive to meet the needs of our customers and now offer not bulk fudge, but fudge mix, and a variety of packaged fudge. We are proud of our 3rd Party Audited certification knowing we offer product made to the safest and highest of standards.

COX SAUCE
BARBECUE SAUCE

SOUTH CAROLINA

CAROLINA RED BARBECUE SAUCE

Passed down for 3 generations

When Jack's daughter married a Cox, the recipe passed to the second generation. The Cox family has been raising pigs and chickens for decades, and can trace their NC family farming roots back to the 1700's. It is the third generation to combine these family legacies and present to you a product with a proven poultry pedigree that is proud to continue the chicken tradition. Cox Sauce BBQ Sauce is mostly sweet, a lil tangy, with just a hint of heat. Great on grilled chicken, ribs, beef, pork, fish, and veggies.

ELI'S LEMONADE™

Eli's Lemonade was created in the summer 2016 when, then 6-year-old, Eli Leach was looking for something to do on a Saturday. After doing research on other youth-owned brands, Eli launched the lemonade stand at the farmers market at NoDa, a proud community in Charlotte. North Carolina.

Eli's Lemonade has gained a loyal following since 2016 and has continued to grow at festivals, concerts, and by partnering with hospitality groups in the Charlotte area.

Using filtered water, pure cane sugar, and lemons from Florida, Eli's makes a lemonade that is not too sweet or too tart and tastes best when poured over ice! Eli's Lemonade is a Got To Be NC product and has been a hit with customers throughout the area.

I grew up loving spicy foods and searched for a hot sauce with the perfect combination of heat and flavor. I remember being a kid, watching football at sports bars with my brother and dad, eating wings and sampling hot sauce, but always craving more flavor and more heat from Mild to Medium to Hot and beyond!

Good times and great food have been my passion for years, but as I got older I realized that there was something lacking in most hot sauces I tried: they were barely hot enough to get my endorphins going or were all heat and devoid of flavor.

So, I made it my mission to create the sauce I had been craving. The result is FIREWALKER Hot Sauce.

OUR STORY

Our story begins in the late 90's in a small town in central Pennsylvania called State College, where two kids from Pittsburgh and Philadelphia became friends at Penn State University. At that point in time, we were both members of the Acacia fraternity and doing what 20-year college "students" do best. Having a blast! Oh, and lots of studying of course.

In 2019, an unexpected reunion took place. For work purposes, we had both relocated to the Raleigh area in the great state of North Carolina. Common interests still included golf, cooking, tailgating, Penn State football, and a nice glass of bourbon! While enjoying a few cocktails one evening, the idea of starting a business resurfaced. As semi-professional tailgaters and wanna-be-chefs, we knew we had a great product to bring to the masses. One that had been hand crafted and perfected over time. Our house-made Bloody Mary Mix. Gold Hen had been born! The year is now 2025 and WE ARE proud to bring you Gold Hen "Sweet with a Little Heat" Bloody Mary Mix. We truly hope you enjoy it! Cheers! *Shawn & Andrew*

FROM CLAYTON

I COULDN'T FIND A DRINK I ACTUALLY FELT GOOD ABOUT.

I was doing everything else right — eating better, working out, actually caring about what I put in my body. Then I'd pick up an energy drink and feel like I'd just undone all of it in one can.

> *"We wanted to rebuild it into something different."*

So I started making my own. That wasn't a business plan. It was a personal decision. But once I made something I actually trusted — real superfoods, brewed from scratch, nothing I'd have to explain away — I figured if I needed that, other people probably did too.

HINNANT
FAMILY VINEYARDS

The Hinnant Family Vineyards & Winery Story

At the turn of the century, Williard & his son, Bob started their own quest to create wine from the family vineyard. Starting with just a few varieties of wine, the doors opened and in 2003 the first bottle was sold. The father & son pair enjoyed working side by side fine tuning their award winning wines until 2013, when Williard passed away. Bob, with his family's reassurance, support (and secret recipe,) now operates Hinnant Family Vineyards & Winery.

Over the years, Willard & Bob acquired all of the land and holdings from Williard's siblings. Building upon the original acreage growing to a 100 acres of grapes, the Hinnant Family Vineyards & Winery is the oldest and largest commercial Muscadine vineyard in the state of North Carolina.

"SWEET-HEAT" SAUCES

We started out by trying to make a uniquely blended BBQ sauce based on our love of all things sweet, spicy and savory. After extensive tasting across the Carolinas and beyond, we experimented with several recipe versions. What we ended up with isn't "just a BBQ sauce", but a sauce for dipping, grilling, basting and drizzling. The unique "Sweet" then "Heat" combination of flavors make Hot Dippity Dawg sauces a great addition to your culinary adventures.

Of course you can use it as a traditional BBQ sauce, but try it as a sandwich dipping sauce, over your eggs, on pizza, drizzled over veggies, or for more ideas visit our Kitchen to see what other recipes our fans have come up with!

Jackson Family Honey

Bringing A Taste of Carolina Sweetness from Our Family to Yours

Three descendants of the Granny Mary Kathryn Jackson family, Christy, Christian, and Christopher, have joined forces to bring you a great tasting pure honey. One can get a naturally sweet taste of the Carolinas' nectar from the mountains to the coastal flora. The company's goals are to offer you a great tasting honey at an affordable price while becoming your natural sweetener of choice. The roots of the honey business started in Mount Olive NC in 1972 when Christopher, with his father, gathered their first hive from a farmhouse in the middle of the pickle cucumber fields. After enduring about 100 stings in a day, the learning process of how to keep bees and process honey began. Over the years, the members have created other successful honey companies across the southeast, and now as a family-oriented business. Our family brings you a mild sweet pure honey blend of the Carolina sweetness.

Craft LOWCOUNTRY KETTLE POTATO CHIPS

SOUTH CAROLINA

Lowcountry Kettle owners, Andrew Trumbull and Clayton Wynne, were working together at The Obstinate Daughter restaurant on Sullivan's Island when the idea first arose to start a potato chip company. Andrew, a FOH manager at the time, was attending a managers meeting when the topic of potato chips came up as a possible grab-and-go item to carry at the property's gelateria below. Everyone at the table agreed that chips would make a great addition for those customers looking for a salty snack option. The table also agreed the chips should be locally sourced. However, after a few blank stares and empty google searches, it became very apparent that no such item currently existed in the Charleston or South Carolina market.

Nellie T's

Nellie T's, LLC was founded in 2014 and named for my grandmother.. She was a simple woman who worked hard and was faithful to her family. My mother and her friends loved packing a picnic lunch on a Sunday afternoon. They would spend time telling stories, laughing, and walking along the ***Swamp Rabbit*** railroad in Upstate South Carolina. The simple pleasures ring true still today when thoughts, sights, smells, and tastes take us back to a simpler time. Simply put, Nellie T's makes the best nut butter, period. We use only the finest ingredients to produce a taste treat that will take you back to your childhood with friends and family.

A NEW CREATION SODA WORKS 2017

Georgia

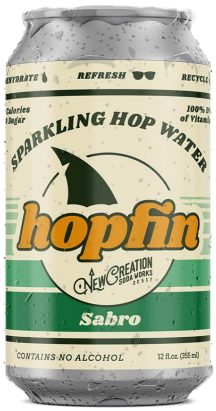

Welcome to New Creation Soda Works, a family owned and operated craft soda shop located in Bishop, Georgia. We hand craft unique sodas doing our best to deliver the best soda you can find anywhere. Operating out of the old Thaxton's Turkey Hatchery in Bishop, GA, we create our own recipes or put a twist on an old classic so our customers can enjoy a lighter, fresher, and creative alternative to conventional sodas. We source the finest ingredients we can find and work in small batches the old-fashioned way — by hand; from berry picking and fruit cutting to bottling and labeling. We keep our ingredient list short and flavorful. We aren't the first to make craft soda, but are joining other small companies around the country intent on creating a new generation of soda. We are following the footsteps of our hand-crafted beer brewing friends and believe the path is just as wide and long for hand-crafted soda. Every day we grow as a family, working hard, having fun, and doing our best to use the talents God has given us to do what He has called us to do. We hope in some way, you will join us on our journey.

Oak City Hot Sauce Co was founded by Zack Goodman and Chef Devin Bayles in Raleigh, North Carolina. ...By accident.

When a big order of peppers turned out way too spicy to use in their intended dish, rather than waste, they made the first unofficial batch of Oak City Hot Sauce in 2017.

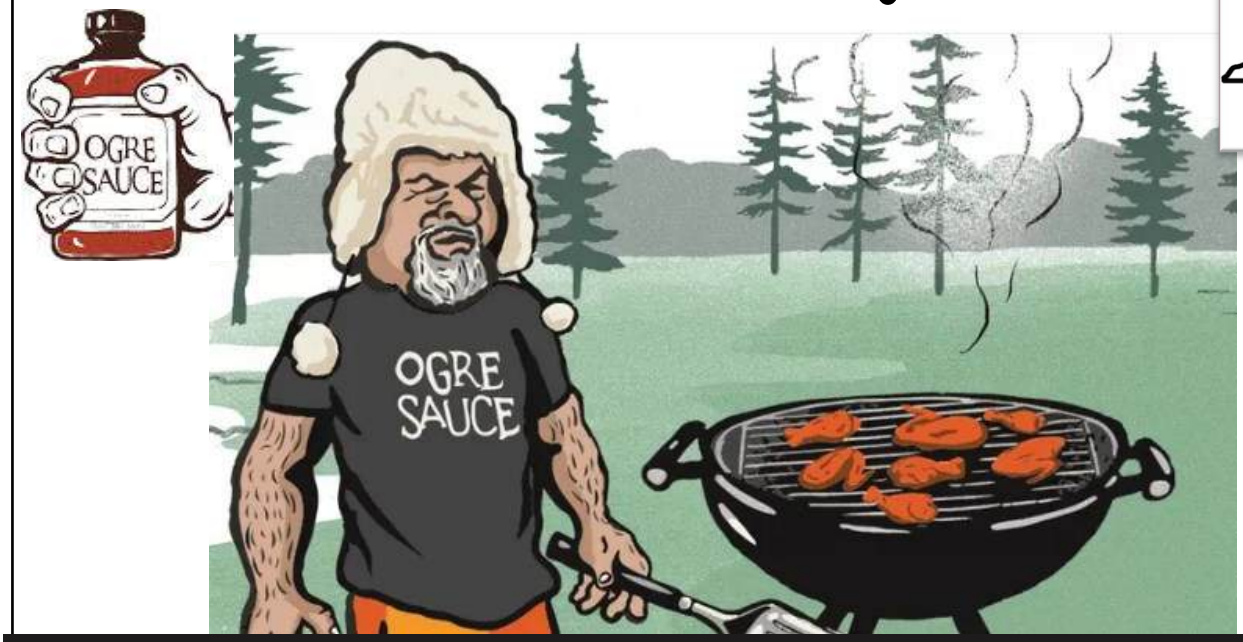

After countless hours in the test kitchen, they produced the first official line of sauces, with the goal of sauce that *adds* to dishes, rather than overwhelm them.

All of our sauces are vegan and gluten free, free of dyes, preservatives, extracts and artificial colors. Our produce is sustainably sourced from local farmers.

Ogre's Story

Mike "Ogre" Weeks found his grandmother's recipe, made it his own, and before long was selling it in five gallon buckets out of the trunk of his car. With the recipe perfected after countless backyard cookouts and gatherings, childhood friends Mike and Mike bottled Ogre's sauce with the goal of being the BBQ sauce and condiment of every restaurant, food truck and family kitchen.

Old Mule
The "BBQ-Marinade-Dipping" Sauce

AGRICULTURE got to be NC

Based at the Modlin family farm in the Blue Ridge Mountains, Old Mule specializes in crafting a unique barbecue, marinade and dipping sauce. The secret family recipe got its start in the 1980s, when Farm Bureau members Steve and Cheryl Modlin began making jars of their special sauce to give away as gifts. Their friends and family loved it so much that they encouraged the couple to go into business. Today, you can find Old Mule at vendors across the country. The gourmet sauce is available in five flavors, which the Modlins continue to produce on their farm in Polk County. Customers love using the sauce for everything from grilling and barbecuing to marinating meats, dipping chips, French fries, spreading on sandwiches, and more.

As a hobby, David Hinson became fascinated with antique food production methods and equipment back in the 1980's after purchasing a farm in his hometown of Albemarle, North Carolina. Home cooked molasses and fresh pressed apple cider were the first products Dave made and in doing so, it occurred to him that these foods were ***exactly*** as they would have been, by manufacturing methods and taste, hundreds of years earlier. He was hooked on the idea of recreating authentic tasting foods with pure ingredients, "prepared in the ways passed down from '*The Old School*.

Osburn Acres

NORTH CAROLINA

Homegrown is nothing new to the Osburn family. As a boy from a small town in North Florida, Garrett Osburn fondly remembers going out to the family farm and learning what hard, yet rewarding work looked like as he helped his dad to sustain their way of life. As an adult, Garrett has taken this passion and transformed it into some amazing experiences as he cultivated his career as a chef. Today, Garrett is joined by his wife Rachel, who also cherishes small town living. Growing up in the rolling hills of North Carolina, Rachel experienced a community who never met a stranger. The Osburns now share their commitment of locally grown produce and a never ending desire to grow their family farm.

Starting with a few chickens and a sad little pepper plant, the Osburns began making some homegrown pepper jelly in their modest 1960's kitchen for friends and family to enjoy. Over time, Osburn Acres has taken root and expended to what it has become today.

We are now thrilled to share our story and our passion for fresh, and just plain good, jellies with you.

We hope you enjoy!

It's not JUST granola!

One day, granola met trail mix. They had a wonderful baby that we named OBX Granola. So good we trademarked it!

As a snack, on yogurt or ice cream, in salad, baked into cookies... You may need to fight off your neighbors or hide it from your family. It really is that addictive!

POPPY
HAND-CRAFTED POPCORN

Ginger is the CEO of Poppy Handcrafted Popcorn. Ginger started Poppy for one simple reason: she wanted to be there for her kids' school programs, baseball games and performances. In late 2014, armed with a hard work ethic and one popcorn machine, Ginger opened up shop. From the beginning she had a clear vision of what she wanted Poppy to be: simple, fun, well-designed, and of course, tasty, without the artificial ingredients found in other popcorn brands.

Customers loved it! That first holiday season, some happy customers asked if they could ship Poppy to their family, friends and business customers. As word spread, retailers from across the country started calling to ask how they could carry Poppy in their stores, too.

Ginger always wanted to keep her business local, homegrown and fresh. Instead of outsourcing the production (as so many snack companies do), Poppy is still hand-crafted with love in Asheville, North Carolina. This ensures that every batch is as delicious as the popcorn made by Ginger when Poppy first opened its doors.

Porzio's

SOUTH CAROLINA

The newest chapter of our story begins with Maureen Porzio, the great- great-granddaughter of John D. Porzio I. She had grown up making the family's sauce with her dad and grandfather and she decided she wanted to bottle it up for others to enjoy. In 2011, her grandfather, John Porzio IV, gave her his blessing to pursue her passion to revive the family recipes during his final hours. She spent the next year perfecting the bottling process while also studying at the College of Charleston. It was during this time at the College that she met Kaitlyn Ervin, who would first become an intern and eventually a full-time partner. Together, Maureen and Kaitlyn expanded both the product line (check out our delicious basil pesto's and naturally sweetened ketchup) and distribution footprint.

It all started with their grandmother, Lily Patterson Ritchie as she baked her first batch in the kitchen of the circa 1906 family home in Concord, NC, fondly known as “Ritchie Hill.” Their father, Lee Ritchie carried on the tradition, with family and friends requesting them every holiday - the only time of year he baked them. When the recipe was handed to Heath years later, they proved just as popular in Concord. In fact, he couldn’t bake enough each year to satisfy demand. So, it was out of necessity that Ritchie Hill Bakery was born.

Today, the bakery resides at the historic Old Creamery building in Concord, where nephew and chef Charles Ritchie helps bake Heath’s Cheese Straws every day. They are still prepared exactly the same, with the original family recipe, in small batches. The only difference: fresh batches ship to customers all over the country each day.

Our story is like many immigrants that came to America before us, with our dream of coming to the Land of the Free and the Home of the Brave, as well as, enjoy life and pursue whatever makes us happy. In our case was to raise a family, worship God, own a home and live a decent life. In 1996 my wife Mary, my son David, my parents Daniel and Fernanda and myself Marcos, came to America. Everything we owned was what we were wearing and whatever fit in my parents' Minivan, no home, no job, no car and little money to make it last until we had an income, but we know we had to shed sweat, blood and tears in order to make our dreams come true. We established in the beautiful city of Winston-Salem, NC.

Shaffer Venison Farms Inc. is a family owned, family operated venison and elk processing plant located in central Pennsylvania. For over 15 years Shaffer Venison Farms has been committed to high quality venison and elk products free of any stimulants such as growth hormones or other chemicals. Because the animals' diet consists of natural foods and minerals, you can be assured of healthy, tasty, venison products.

We are a family business that is committed to the highest quality venison at the most reasonable price that we can. We want our customers to come back to us every time they need venison or elk and to develop a relationship that lasts a lifetime. We are so committed to giving our customers the best products we can that in December 2000 we opened our own modern processing plant so that we can control the quality of our venison from the farm until it gets to your front door.

Since launching, our sauces have earned four awards, including a first-place finish at the 2025 Scovie Awards.

Looking ahead, we're working on new sauces and possibly even something spicy beyond hot sauce. Whatever comes next, one thing is certain—we'll keep cranking up the volume, blending bold flavors with heat, and paying tribute to the music that inspires us.

So whether you're drizzling, dousing, or mixing up something new, we hope Splintered Sauce brings a little extra rhythm and distortion to your next bite.

Still there

Cooking professionally for 30+ years has given me the opportunity to perfect my palate and create Still There BBQ sauces. The process started in 2007, with an old stock pot and an idea. How could I engage the history of the region and deliver a product that would be different yet easily applicable. Through all my years in cooking I developed certain likes and combinations that have always delivered a great product. Armed with this lifetime of knowledge I began to mix, taste and remix.

STONEWALL KITCHEN
FAMILY of BRANDS

1991

It all began at a farmers' market in Portsmouth, New Hampshire.

Our Humble Beginnings

From the start Jim Stott and Jonathan King wore many hats. Setting up shop in Jim's family summer cottage, they spent endless hours cooking, hand-writing labels, taking photos and selling products. Often it became a full family affair: nephews and nieces filled jars one-by-one, Jim's 90-year-old grandmother, Pearl, helped glue burlap onto jar lids and Jonathan's mother worked as a store clerk.

The Original Recipe

"It's inspired by my grandmother Pearl's delicious blueberry pie," says Jim. "I wanted to create the smell of her freshly baked pie filled with tasty, ripe blueberries. And we did just that. Every time I open our Wild Maine Blueberry Jam, I think of my grandmother."

PREORDER FOR FRESHNESS!

The techniques of smoking, boneless fillets, processing red trout, and preparing caviar, all began to expand the horizons for commercial farming at Sunburst. Soon to follow was a pate (dip). Carefully portioned pieces of the largest fattest fillets and even a presentation known as "en papillote", a French culinary concept, were also making a name for themselves. We have been able to expand our offerings to not just trout with encrusted and marinated fillets, trout jerky, but also a non trout product, pimento goat cheese that pairs perfectly with our hickory smoked trout.

Sunburst has perfected a cold smoked Scottish Trout using only top quality fillets for their new presentation. These preparations were practical only after adapting their production to a much larger trout. The resulting large trout are similar in look to salmon, but milder and more delicate.

Our products are some of cleanest and healthiest on the market. But non-GMO, organic, low calories, high protein...these things mean nothing if it tastes terrible. To be honest, we don't blame the other snacks out there. What else do you sell people on when your products taste like dirt? Dirt is also, we might add, a 100% organic, non-GMO, no added sugar ingredient. ;) If you're as obsessed with taste as us and understand that creating the best-tasting foods on the planet requires a dash of salt, sugar, and fat, then we'd love to have you try our products. We promise they'll put a smile on your face. And if not, no worries. But please, always eat what makes you happy. Because life's too short to eat dirt.

Larry Monahan was the owner of a restaurant in Wakefield, Virginia. It was the fall of 1949 and the local peanut crop would soon be harvested. A peanut broker came to him and suggested he start roasting and promoting the local cash crop. Larry, or Daddy-O as he was known, came up with a recipe to roast the peanuts using a process of soaking in hot water before oil roasting. The result was a super-crunchy, irresistible peanut that would soon change the snack nut world forever. Our products are still made with the same time-honored recipe that has made our nuts famous for over 70 years. Thanks Daddy-O for giving us this to share with the world!

WEHRLOOM HONEY

In 2010, Aron and Jessica Wehr, along with their daughters Anna and Abby, landed in Robbinsville, North Carolina, expecting it to be a brief stop on their journey. The pace of life, the tight-knit community, and the wild beauty of Graham County quickly worked their way into the family's hearts and turned that stop into home. Not long after, Aron gave Jessica a pair of honeybee hives for Christmas, a thoughtful gift that would quietly reshape their lives.

Proud to be a Veteran and

Woman-Owned small business

Whole Hive Honey Company® began as a fun environmentally-focused hobby that its founders, Chris and Kaley Conner, could experience together. After taking a beginning beekeeper's class at Appalachian State University, they quickly set out to boost the output of their family vegetable garden; and to share with others how important pollinators are to our environment. All while providing some sweet, healthy honey goodness for family and friends to enjoy.
