Inspired by the flavorful and complex spices of traditional Indian chai, Tommy and Joel began testing and tasting their own twist on a recipe learnt from an old friend Tommy met years ago during his travels. Gram by gram, batch by batch, Tommy and Joel discovered the recipe which is now Asheville's favorite local chai; AppalaChai!

Big Bottom Milk Company

In the rural small town of Rutherfordton, NC, two families have embarked on an amazing journey to preserve and promote agriculture in beautiful Western North Carolina. The Beam and Green families are working together, with a focus on Beef & Dairy, to support the local agricultural industry in the Carolinas and throughout the southeast. Our families promise to deliver wholesome and high-quality products, provide excellent service, and work tirelessly to preserve the small family farm community. By prioritizing agriculture and small-scale farming, our goal is to ensure the longevity of the family farm for future generations. We extend our deepest gratitude to our retail and consumer partners who join us on this journey. At Big Bottom Milk Company, our top commitment is to the quality of our milk. Our dairy farm is home to 70 cows that produce A2A2 milk. This means that our cows produce milk with a 100% beta-casein protein, which studies have shown to be easier for the stomach to digest, reducing the likelihood of any discomfort.

Meet Jim Millican of Big Delicious Brand

Raleigh, North Carolina

Jim Millican: Founder of Big Delicious

I didn't learn to cook from my Nana. Or even from Mom.

Nope, I cut my teeth chopping ingredients for my Dad. A true Southern gentleman, a colorful storyteller, and an all-around guy's guy, my father cooked with passion. "Use the best ingredients," he lectured. "Take your time," he nagged. And "always", he said, "keep it simple." Except, that is, with the flavor. Ever generous with the spice, the Old Man wasn't about peace, harmony, and Kumbaya. No sir, he was all about blitzing the taste buds with big, delicious flavor.

Today I make hearty good food in small batches -- so you don't have to. Look for the Big Delicious gold star and grab some today for your next party, or tailgate, or... whatever strikes your fancy!

It's always great to have some on hand!

We are Dave and Melissa Stahlman - owners, roasters, and coffee lovers. After purchasing a 1 kg roaster in 2011, we have experimented with single origin coffee beans to determine the perfect roast level and process. We expanded to an LLC and increased our capacity and quality by the addition of a San Francisco SF25 gas roaster in 2014. We know we have created something special with fresh micro roasted coffee with distinct flavors and quality based on feedback from our customers. Be assured the Black Powder Certified assures the beans were grown and harvested in an ecological manner with high respect for the workers.

Our Family Team

Blue Moon was founded by Chris “Wishbone” Walker who has dedicated his life to the pursuit of fresh, delicious, flavorful food. He started his love affair with food before he was old enough to see over his mother’s kitchen counter and his passion continued to grow as he worked in restaurants as a chef, caterer, manager and owner. Molly joined the team and helped him to open his first retail location. Molly has a corporate marketing background and spent a decade honing her skills with big national companies like Amazon.com and Pure Barre. With three young kids, Molly decided the time was right to partner with her Dad and help him take the business to the next level.

Nestled in the rolling hills of Virginia, a dedicated Amish family and dairy farmer, Noah, who has produced milk for 25 years has carved out a niche in the world of artisanal cheese-making. This farmer, often starting their day before dawn, combines traditional farming practices with a passion for high-quality dairy products. Their herd of cows, which are treated with the utmost care and respect, graze on lush pastures that are free from synthetic pesticides and fertilizers. This commitment to sustainable and ethical farming practices not only ensures the health of the animals but also contributes to the superior quality of the milk and cream used in producing their delicious cheeses. The process of turning this fresh, rich milk into cheese is both an art and a science. This Amish farm consists of 4 families that include, Noah and 3 brother-in-laws, one being a neighbor farmer. This Amish Dairy employs age-old techniques passed down through generations, along with modern innovations, to craft a variety of cheeses from Cheddar, Colby, and Mexican cheese that tantalize the palate. Each batch is carefully monitored and aged to perfection, allowing the flavors to develop and mature up to 3 years to peak maturity.

Most products are packaged in variable weights.

At Cugino Forno, we believe that pizza is more than a meal. It's an art and way of life for us. We are three cousins from a small town in Turkey. Food plays an important part in our culture in the way it is prepared, served, and shared with our loved ones. The art and craft, as well as the tradition behind true Neapolitan-style pizza struck a cord with us, as it represents everything we believe in when it comes to cuisine. We spent years researching Neapolitan style pizza, including long beautiful months spent in Naples learning from the world's greatest pizzaiolos, where we picked up expert technique, embraced ourselves in the Italian history, found the importance of quality ingredients, and so much more.

Joseph, Yilmaz, & Adam

Darë was brought into existence by chef, Gwendolyn Dare Hageman, who spent most of her life as an omnivore inspired by her chef Dad. The two had a snack ritual involving a block of cheese, a pack of crackers, and a knife. When Gwendolyn decided to pursue an animal-free lifestyle, the thought of losing her favorite snack sent her searching high and low for a sufficient substitute. Time and again, she came up empty, thus beginning her journey in creating the taste she craved.

GREENSBORO, N.C. — As soon as customers walk in, mouth-watering barbecue sandwiches and large plates are put together. But as owner Mike Neal tells us, his south Greensboro restaurant on Randleman Road doesn't serve your ordinary barbecue.

"I like to say we are in North Carolina and we sell barbecue made from turkey," he said. "There's no pork barbecue at Neal's eatery." At Hickory Tree Turkey BBQ, turkey is tops. "When we first started, it was something we had to introduce people to," Neal said. "As people become more health-conscious, it is gaining popularity."

As a little girl, I fondly remember long, hot summers spent ankle-deep in the rich dirt of my Nana's garden. When lettuce season arrived, I especially looked forward to the yummy greens we would gather and eat with Nana's special homemade vinaigrette dressing. No meal was complete unless there was a bowl full of beautiful veggies tossed with one of her famous dressings. Now as an adult, I mostly get my greens from the local farmers' market, but I still continue the tradition by serving my sweet Nana's bottle of bliss with my own little personal twist! So if you're like me, a mother on the go wanting to provide something healthy and fresh for your family, I am proud to pass on to you what my family has enjoyed for many years.

Enjoy and God bless!

Carmella, Owner & Pasta Maker at Melina's Fresh Pasta, grew up in a traditional Italian-American family in Syracuse, NY (Go Orange!). The first to be born in the United States, she longed for a connection to the country every other member of her family was from. After years of watching her mother, Giuseppa, make homemade Italian food from what her father, Giuseppe,* grew in his garden, she wanted to share the Italian tradition of food made from scratch with care and served with love to family and friends. Upon arrival in North Carolina Carmella noted a lack of authentic Italian food in the area (and a lack of Italians!). So in 2010, she travelled to Bologna, Italy to supplement the Southern Italian cooking lessons of her mother and learn the Northern Italian tradition of fresh pasta making.

Hong (“Hongie”) Schulte is from Sichuan Province, China, a region known for rich agriculture, beautiful mountains, and spicy food. Hong met her husband and business partner, Stuart, while they were college students studying in Chongqing in the late 1980s. Together they have lived and worked in China, Arizona, and Ohio, before finally returning to Stuart’s native Moore County, North Carolina in 2007. Hong has always enjoyed cooking dumplings for friends and family both in China and the USA. This became the idea for her new company, Moore Dumplings. Hong brings her love for her famous hometown cuisine, such as Mapo Tofu and other Asian flavors, like Japanese curry in her vegan potstickers. Moore Dumplings are a fusion of unique tastes wrapped in a convenient and familiar package. These potstickers are made in small batches and wrapped by hand. Hong says they are best when pan-fried or air-fried but are also delicious boiled and steamed.

Each batch of Queen Charlotte's Pimento Cheese Royale is handcrafted in our brand new production facility in our hometown of Charlotte, NC. After starting with a cream cheese base (and less mayonnaise than the average pimento cheese), we grate, blend, and package each and every tub by hand. In Her Majesty's Royal Opinion, this most delectable of concoctions is the finest pimento cheese man has ever conjured.

WHERE DO THESE DELICIOUS HOMESTYLE MEALS COME FROM?

Stoltzfus Kitchen

Stoltzfus Kitchen is a small family-run business that started in November of 2015. Wilmer Stoltzfus began making homemade meals as a business in a certified USDA kitchen in the basement of his home. Though his sales have grown exponentially since then, that's still where they make all of their meals today. Wilmer, along with the help of his family makes an average of 480 meals per day from 7 a.m. to 3 p.m. Most of the recipes that Wilmer uses for his homestyle meals are old family favorites that he created on his own. . .

Tin Roof Pizza was founded in 2018, built entirely from scratch. During a layover, owners Val and Diane (a chef and sommelier) discovered a restaurant serving the best pizza they had ever tasted. Inspired, they brought the crust recipe back to their hometown. They remodeled a '64 Chevy dually truck, installed a brick wood-fired oven on a hydraulic lift, and began serving handcrafted, crispy, and delicious pizzas. Demand quickly outgrew the truck, leading to the creation of frozen Tin Roof Pizza. Now, the same hand-stretched, par-baked crust is available for you to enjoy at home. Made from scratch with premium toppings, it features a light, crispy texture using non-GMO flours, no added sugars, and significantly less gluten than many frozen pizza brands. Ready in just 12–15 minutes, Tin Roof Pizza is a household favorite—your freezer should never be without one!

- OUR STORY -

Whoomus Foods is a new hummus brand that is traditionally inspired from Mediterranean flavors and locally crafted by our founder and chef. Based in Charlotte, North Carolina, our founder created this company to share a family recipe he brought to the United States from Egypt.

We were inspired to create Whoomus Foods because the hummus of today has drifted from the traditional recipe. Whoomus Foods wants to reintroduce you to hummus and give you an opportunity to fall in love with a new, exciting taste. Our hummus pairs well with pita, sandwiches, and veggies. We encourage you to try our hummus and let us know what you think. Thank you for supporting our small, minority-owned business!

ALLEY

Twenty Six

Alley Twenty Six Cocktail Syrups was born out of the James Beard Outstanding Bar Program Finalist Alley Twenty Six Restaurant and Bar - the first nominee ever from North Carolina. Launched in 2015 with a single product - tonic syrup - the brand catered to mainly other bars and restaurants. During the pandemic, founder Shannon Healy and his team expanded the line to include a variety of cocktail syrups flavors and began retailing to loyal customers from the restaurant. Alley Twenty Six Cocktail Syrups is rooted in the philosophy that the best ingredients make the best cocktails whether you are drinking at your favorite bar or at home.

BEHIND ANGRY ANGEL

As a professional race car driver, founder Justin Lloyd saw the need for a healthier energy drink option. After years of being surrounded by energy drinks packed with sugar and other damaging additives, he worked to develop a functional beverage with zero calories, zero sugar, and zero artificial ingredients. Sweetened with organic monk fruit, powered by plant-based caffeine from Yerba Mate, and enhanced with CoQ10, Angry Angel is proudly the only Non-GMO Project Verified high-performance energy beverage.

Meet the Caribbean Colonel

In 1968, Dr. Tony Martin, a Doctor of Naturopathy in nutrition and born in British Guyana, immigrated to the United States, bringing with him secret recipes handed down to him through generations of his family. He moved to Charlotte, NC in 1986 and opened a small cafe with a menu straight from the heart of the Caribbean. It is named for his mother, Ann, and himself, Tony.

Anntony's Caribbean Café has won many awards, received favorable reviews and accolades for its innovative style and tasty island cuisine. Rotisserie chicken marinated and seasoned for an authentic Caribbean flair has made our restaurants famous. This flavorful fare caused such a stir, Dr. Martin had to create his unique and flavorful sauces and dry spices for retail sale.

These sauces and dry spices/rubs are so unique and versatile they can be used for marinating, dipping, topping, in beverages or just boasting to your guests that you've discovered a new secret recipe.

We are Dave and Melissa Stahlman - owners, roasters, and coffee lovers. After purchasing a 1 kg roaster in 2011, we have experimented with single origin coffee beans to determine the perfect roast level and process. We expanded to an LLC and increased our capacity and quality by the addition of a San Franciscan SF25 gas roaster in 2014. We know we have created something special with fresh micro roasted coffee with distinct flavors and quality based on feedback from our customers. Be assured the Black Powder Certified assures the beans were grown and harvested in an ecological manner with high respect for the workers.

The Triad is steeped in history and rich in tradition. From the early Quaker long rifle makers to the laborious BBQ pitmasters, many came to our area to hone and perfect their craft. At Black Powder Smokehouse we honor those who came before and the community that surrounds us. In this 4k, 5G, overnight society we pride ourselves on cooking "low-n-slow". We take the time to cook from scratch, say hello when you stop in, and say thank you when you leave. Traditions aren't made overnight - they take years of consistency and craftsmanship to develop. At Black Powder we hope to create a tradition that spans generations and a place our community can be proud of.

Blessed by Elderberries

What they don't tell you when you become a mother is how easy germs spread. How are they the only things that kids even share nicely?! They made us miserable. We were constantly catching every bug out there and then taking 2 weeks to get over all of them. I felt like we never left our house and I was a constant nurse maid! We found some all natural ways of boosting our immune system, one of those was elderberry syrup, and we were hooked! We haven't been to the doctor's office, except one time, in over 2 years now! It's been a huge blessing to incorporate God's medicine into our lives and one that I hope to pass on to you!

BRUCE JULIAN HERITAGE FOODS

Over the years Bruce Julian, a haberdasher from North Carolina, had been on a quest to create the perfect Bloody Mary and he nailed it with his award winning mix! In 2014 Bruce Julian Bloody Mary Mix was introduced! This all-natural, handcrafted, sophisticated mixer starts out sweet and finishes savory. It has just enough heat and tastes homemade every time. To further pay homage to this Southern Classic we added Bruce's own pickled veggies which instantly conjures a lazy Sunday morning on the porch, no matter where you happen to be doing your sippin'.

Chad's Carolina Corn is a family business based in Greensboro, NC with one singular purpose: make the best popcorn in the world! After working in the technology sector for many years Chad decided it was time for a change. He wanted to start a business that would allow him to spend more time with his family, and have them be a part of what he is doing. The answer slowly came into focus: start a gourmet popcorn company.

Chapel Hill
Toffee

Mom's homemade toffee was always a special treat for Mark Graves growing up in his family home in Chapel Hill, North Carolina. In 2006, after years of perfecting her secret family recipe, Mark's mother, Karen Graves, decided to turn her favorite hobby into her own home-based business. Chapel Hill Toffee begins with a layer of traditional English toffee spread thin and cut by hand into bite sized squares. Each piece is coated on both sides with a top-secret blend of dark chocolates. The smooth layers are finished off with the sprinkling of pecans that gives Chapel Hill Toffee its iconic look and distinctive southern twist!

Tennessee

My wife Pamela and I started Country Fresh Fudge in 1989, next to the foothills of the Smoky Mountains, in the small Tennessee town of Oliver Springs. At that time we owned two convenience stores and delis where we made and sold fudge to our customers. We were constantly told that our fudge was much better than the other fudges people had tried in Gatlinburg, Tennessee. It was at that time that we realized that we could offer our customers the very finest product of it's kind with an extremely innovative fudge vending program. We understood that for some people, making their own fudge was not an option, so we offered a product that was not only superior, but easy to sell.

Since then, we have strived to create the perfect fudge, changing our recipes numerous times until they were perfect and to this day as technology changes so do we. We are a company built on values and a reputation that honesty before profit is always the way to go. These are values I learned as a child working in my mother's bakery. I learned that the customer is what you're here for. If it's not right to them, then it just isn't right. Our fudge is made from the recipes that we developed unlike some others on the market.

We are a company that understands the value of our customers. On November 6, 2003 our plant, offices, and warehouse were all destroyed by fire. The only thing that was saved before the fire consumed everything was our file server and one forklift. However, we knew that this time of year was the busiest time for not only us but to our customers. So, we felt obligated to hurry back into production. On December 1, 2003 at 6:30 a.m. the first batches of fudge were put into production. Without our loyal customers, dedicated employees, understanding vendors, and our supportive community we surely would have faltered.

Since that time, we have been blessed to grow our business and serve even more fine customers. We continually strive to meet the needs of our customers and now offer not bulk fudge, but fudge mix, and a variety of packaged fudge. We are proud of our 3rd Party Audited certification knowing we offer product made to the safest and highest of standards.

CAROLINA RED BARBECUE SAUCE

Passed down for 3 generations

When Jack's daughter married a Cox, the recipe passed to the second generation. The Cox family has been raising pigs and chickens for decades, and can trace their NC family farming roots back to the 1700's. It is the third generation to combine these family legacies and present to you a product with a proven poultry pedigree that is proud to continue the chicken tradition. Cox Sauce BBQ Sauce is mostly sweet, a lil tangy, with just a hint of heat. Great on grilled chicken, ribs, beef, pork, fish, and veggies.

Coffee is what we do, but you are why we do it. The simple act of buying a cup of coffee can drive social change in the communities where our coffee is grown, and here at home. Dynamite Roasting has been 100% certified organic and fair trade since day one, but we strive to go beyond that. It's really about relationships. We're committed to our customers, our growers, our environment and to each other. Plus, we really like coffee. Our mission is to track down the best coffee in the world. We work closely with our partners and growers to ensure the very best quality beans at a great price for our customers. These close relationships also allow us to make sure we're best benefiting the communities that grow our coffee. That means providing a fair and living wage to our farmers, putting back as much goodness as we take from the soil, and having the smallest footprint we can.

Elijah's Xtreme® was created from a father and son's love of hot peppers and passion to create a more flavorful, thicker, hotter, hot sauce. Elijah's Xtreme Ghost Pepper Sauce officially launched in June of 2014! A few years later, after trying many different hot sauces, Elijah went to his father again and asked if they could make their own better tasting, hotter, hot sauce. It took the father and son team more than three years of trial and error to finally get their handcrafted recipe just right. Late in the summer of 2013 the two created the perfect balance of heat and flavor. They sent out over 100 samples and the feedback was great... everyone loved it, saying the same thing... "It's hot, but has great flavor!" With that, his father named their creation, Elijah's Xtreme! (Since Elijah wanted to be so Xtreme by eating the world's hottest pepper).

Eli's Lemonade was created in the summer 2016 when, then 6-year-old, Eli Leach was looking for something to do on a Saturday. After doing research on other youth-owned brands, Eli launched the lemonade stand at the farmers market at NoDa, a proud community in Charlotte, North Carolina. Using filtered water, pure cane sugar, and lemons from Florida, Eli's makes a lemonade that is not too sweet or too tart and tastes best when poured over ice! Eli's Lemonade is a Got To Be NC product and has been a hit with customers throughout the area.

I grew up loving spicy foods and searched for a hot sauce with the perfect combination of heat and flavor. I remember being a kid, watching football at sports bars with my brother and dad, eating wings and sampling hot sauce, but always craving more flavor and more heat from Mild to Medium to Hot and beyond!

Good times and great food have been my passion for years, but as I got older I realized that there was something lacking in most hot sauces I tried: they were barely hot enough to get my endorphins going or were all heat and devoid of flavor.

So, I made it my mission to create the sauce I had been craving. The result is FIREWALKER Hot Sauce.

Experience the flavor of
Memphis BBQ Sauce
with a
Carolina Twang!

No High Fructose Corn Syrup
Gluten Free

Our Story started where most food stories do, the LOVE of bringing people together to share a good meal and to spend some time together. This was the way it was growing up. The family gathered around the table on Sunday evenings to spend some time with each other. This LOVE of bringing a few moments of happiness grew into a passion for food and for different flavors and textures.

We found that when we had a BBQ there were those who loved the Memphis Style BBQ sauces and there were the diehards who loved the Carolina sauces. There was always that fine line that people would never budge from. So, what we did is we blended the best of both worlds to bring harmony to this complex BBQ problem.

We drew on the flavors and smokiness of the Memphis, took the twang and a bit of heat from Carolina, added coarse spices to give a lot of taste and of finished it off with the Love of our Past.

Our base sauce "Southern Fusion" is that perfect combination of flavors, our "Blueberry Blast" adds a finish of blueberries to the BBQ to give it a great finish for chicken and other meats and our "CROSSFIRE HOT!" which has a good kick of spice and is not for the meek!

The Happy Hog Team!

Karen Styers' journey to founding KC Sunshine's Cookies is deeply rooted in her personal history and experiences. The name "KC Sunshine's Cookies" not only reflects her initials but also symbolizes her connection to her hometown of Miami and the sweetness of her childhood memories. Growing up surrounded by sugarcane fields and learning to bake from her mother shaped her passion for creating delicious treats. The word "Sunshine" perfectly encapsulates KC's sunny personality and the warmth she infuses into her creations. It's a fitting tribute to her roots and the joy she spreads through her cookies.

LANDCRAFTED FOOD™

Our cattle are born and raised on sustainable family farms, in and around Grayson County, Virginia. We are firm believers that returning to the simplest, most traditional animal husbandry and processing methods yields the best tasting, most healthy foods, just like folks enjoyed generations ago. There are certain things we rely on, because we know they will always be true. Family and community bind us, but we are bound also to the land. It gives us a home and provides for our families. The farmers and producers at Landcrafted Food are dedicated to sustaining and serving our farms and community, by producing foods that are as good for the land as they are for the people who enjoy them.

Nellie T's

Nellie T's, LLC was founded in 2014 and named for my grandmother.. She was a simple woman who worked hard and was faithful to her family. My mother and her friends loved packing a picnic lunch on a Sunday afternoon. They would spend time telling stories, laughing, and walking along the *Swamp Rabbit* railroad in Upstate South Carolina. The simple pleasures ring true still today when thoughts, sights, smells, and tastes take us back to a simpler time. Simply put, Nellie T's makes the best nut butter, period. We use only the finest ingredients to produce a taste treat that will take you back to your childhood with friends and family.

Welcome to New Creation Soda Works, a family owned and operated craft soda shop located in Bishop, Georgia. We hand craft unique sodas doing our best to deliver the best soda you can find anywhere. Operating out of the old Thaxton's Turkey Hatchery in Bishop, GA, we create our own recipes or put a twist on an old classic so our customers can enjoy a lighter, fresher, and creative alternative to conventional sodas. We source the finest ingredients we can find and work in small batches the old-fashioned way — by hand; from berry picking and fruit cutting to bottling and labeling. We keep our ingredient list short and flavorful. We aren't the first to make craft soda, but are joining other small companies around the country intent on creating a new generation of soda. We are following the footsteps of our hand-crafted beer brewing friends and believe the path is just as wide and long for hand-crafted soda. Every day we grow as a family, working hard, having fun, and doing our best to use the talents God has given us to do what He has called us to do. We hope in some way, you will join us on our journey.

I'm from an Italian family in northwestern Pennsylvania, and much of my childhood memories revolve around Sunday dinner at Noni's house—everyone got there early and did their best to not miss a meal.

Twice a year, Non harvested her herbs to make a batch of her seasoning salts and distributed them to the family. This was a really big deal. By the time we got through winter and spring, when her garden was starting to show promise of harvest, all of us were out of salts. It made an impression on me how this small act helped to tie our family together almost as much as those big family dinners we were so careful to not show up late for.

Oak City Hot Sauce Co was founded by Zack Goodman and Chef Devin Bayles in Raleigh, North Carolina. ...By accident.

When a big order of peppers turned out way too spicy to use in their intended dish, rather than waste, they made the first unofficial batch of Oak City Hot Sauce in 2017.

After countless hours in the test kitchen, they produced the first official line of sauces, with the goal of sauce that *adds* to dishes, rather than overwhelm them.

All of our sauces are vegan and gluten free, free of dyes, preservatives, extracts and artificial colors. Our produce is sustainably sourced from local farmers.

Ogre's Story

Mike "Ogre" Weeks found his grandmother's recipe, made it his own, and before long was selling it in five gallon buckets out of the trunk of his car. With the recipe perfected after countless backyard cookouts and gatherings, childhood friends Mike and Mike bottled Ogre's sauce with the goal of being the BBQ sauce and condiment of every restaurant, food truck and family kitchen.

Based at the Modlin family farm in the Blue Ridge Mountains, Old Mule specializes in crafting a unique barbecue, marinade and dipping sauce. The secret family recipe got its start in the 1980s, when Farm Bureau members Steve and Cheryl Modlin began making jars of their special sauce to give away as gifts. Their friends and family loved it so much that they encouraged the couple to go into business. Today, you can find Old Mule at vendors across the country. The gourmet sauce is available in five flavors, which the Modlins continue to produce on their farm in Polk County. Customers love using the sauce for everything from grilling and barbecuing to marinating meats, dipping chips, French fries, spreading on sandwiches, and more.

As a hobby, David Hinson became fascinated with antique food production methods and equipment back in the 1980's after purchasing a farm in his hometown of Albemarle, North Carolina. Home cooked molasses and fresh pressed apple cider were the first products Dave made and in doing so, it occurred to him that these foods were ***exactly*** as they would have been, by manufacturing methods and taste, hundreds of years earlier. He was hooked on the idea of recreating authentic tasting foods with pure ingredients, "prepared in the ways passed down from *'The Old School*.

Homegrown is nothing new to the Oshburn family. As a boy from a small town in North Florida, Garrett Oshburn fondly remembers going out to the family farm and learning what hard, yet rewarding work looked like as he helped his dad to sustain their way of life. As an adult, Garrett has taken this passion and transformed it into some amazing experiences as he cultivated his career as a chef. Today, Garrett is joined by his wife Rachel, who also cherishes small town living. Growing up in the rolling hills of North Carolina, Rachel experienced a community who never met a stranger. The Oshburns now share their commitment of locally grown produce and a never ending desire to grow their family farm.

Starting with a few chickens and a sad little pepper plant, the Oshburns began making some homegrown pepper jelly in their modest 1960's kitchen for friends and family to enjoy. Over time, Oshburn Acres has taken root and expended to what it has become today.

We are now thrilled to share our story and our passion for fresh, and just plain good, jellies with you.

We hope you enjoy!

It's not JUST granola!

One day, granola met trail mix. They had a wonderful baby that we named OBX Granola. So good we trademarked it!

As a snack, on yogurt or ice cream, in salad, baked into cookies... You may need to fight off your neighbors or hide it from your family. It really is that addictive!

Ginger is the CEO of Poppy Handcrafted Popcorn. Ginger started Poppy for one simple reason: she wanted to be there for her kids' school programs, baseball games and performances. In late 2014, armed with a hard work ethic and one popcorn machine, Ginger opened up shop. From the beginning she had a clear vision of what she wanted Poppy to be: simple, fun, well-designed, and of course, tasty, without the artificial ingredients found in other popcorn brands.

Customers loved it! That first holiday season, some happy customers asked if they could ship Poppy to their family, friends and business customers. As word spread, retailers from across the country started calling to ask how they could carry Poppy in their stores, too.

Ginger always wanted to keep her business local, homegrown and fresh. Instead of outsourcing the production (as so many snack companies do), Poppy is still hand-crafted with love in Asheville, North Carolina. This ensures that every batch is as delicious as the popcorn made by Ginger when Poppy first opened its doors.

The newest chapter of our story begins with Maureen Porzio, the great- great-granddaughter of John D. Porzio I. She had grown up making the family's sauce with her dad and grandfather and she decided she wanted to bottle it up for others to enjoy. In 2011, her grandfather, John Porzio IV, gave her his blessing to pursue her passion to revive the family recipes during his final hours. She spent the next year perfecting the bottling process while also studying at the College of Charleston. It was during this time at the College that she met Kaitlyn Ervin, who would first become an intern and eventually a full-time partner. Together, Maureen and Kaitlyn expanded both the product line (check out our delicious basil pesto's and naturally sweetened ketchup) and distribution footprint.

It all started with their grandmother, Lily Patterson Ritchie as she baked her first batch in the kitchen of the circa 1906 family home in Concord, NC, fondly known as "Ritchie Hill." Their father, Lee Ritchie carried on the tradition, with family and friends requesting them every holiday - the only time of year he baked them. When the recipe was handed to Heath years later, they proved just as popular in Concord. In fact, he couldn't bake enough each year to satisfy demand. So, it was out of necessity that Ritchie Hill Bakery was born.

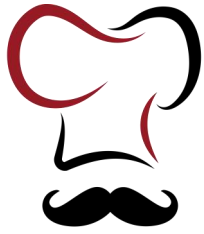

Today, the bakery resides at the historic Old Creamery building in Concord, where nephew and chef Charles Ritchie helps bake Heath's Cheese Straws every day. They are still prepared exactly the same, with the original family recipe, in small batches. The only difference: fresh batches ship to customers all over the country each day.

Bob Rust bought the scooter back in the late '40s and sold hot dogs in Shelby, NC. Fast forward 75 years and his grandson brought it back to life to sell burritos. We named the company Robert Rust Foods to honor the legacy of our grandpa, who was an honest, loving, and caring man who lived to serve others.

Here at Route 11, we consider ourselves traditionalists when it comes to cooking potato chips. We cook in small batches. This cooking style takes more time, but give us the opportunity to create a chip that is undoable on a larger scale. Our methods and high quality ingredients make an exceptional chip with uncommon character. In our opinion, a great chip has a good crunch, without being too hard. A nice golden color and a body with plenty of curl are a must. With every crunch, potato flavor bursts forth. Every day, our staff works diligently to maintain the high standards of production that we have established for ourselves over the years. We use only the best ingredients -- such as 100% expeller-pressed high-oleic sunflower oil and all-natural, unrefined Real Salt. We don't take short cuts. We opt to take our time to produce a very unique potato chip. Yep, unhurried potatoes™. We're also sticklers for cleanliness. Our entire production facility is steam cleaned and disinfected on a nightly basis. More than one industry inspector has quipped, that they could enjoy a meal off of our floor.

Our story is like many immigrants that came to America before us, with our dream of coming to the Land of the Free and the Home of the Brave, as well as, enjoy life and pursue whatever makes us happy. In our case was to raise a family, worship God, own a home and live a decent life. In 1996 my wife Mary, my son David, my parents Daniel and Fernanda and myself Marcos, came to America. Everything we owned was what we were wearing and whatever fit in my parents' Minivan, no home, no job, no car and little money to make it last until we had an income, but we know we had to shed sweat, blood and tears in order to make our dreams come true. We established in the beautiful city of Winston-Salem, NC.

Shaffer Venison Farms Inc. is a family owned, family operated venison and elk processing plant located in central Pennsylvania. For over 15 years Shaffer Venison Farms has been committed to high quality venison and elk products free of any stimulants such as growth hormones or other chemicals. Because the animals' diet consists of natural foods and minerals, you can be assured of healthy, tasty, venison products.

We are a family business that is committed to the highest quality venison at the most reasonable price that we can. We want our customers to come back to us every time they need venison or elk and to develop a relationship that lasts a lifetime. We are so committed to giving our customers the best products we can that in December 2000 we opened our own modern processing plant so that we can control the quality of our venison from the farm until it gets to your front door.

Still there

Cooking professionally for 30+ years has given me the opportunity to perfect my palate and create Still There BBQ sauces. The process started in 2007, with an old stock pot and an idea. How could I engage the history of the region and deliver a product that would be different yet easily applicable. Through all my years in cooking I developed certain likes and combinations that have always delivered a great product. Armed with this lifetime of knowledge I began to mix, taste and remix.

The techniques of smoking, boneless fillets, processing red trout, and preparing caviar, all began to expand the horizons for commercial farming at Sunburst. Soon to follow was a pate (dip). Carefully portioned pieces of the largest fattest fillets and even a presentation known as "en papillote", a French culinary concept, were also making a name for themselves. We have been able to expand our offerings to not just trout with encrusted and marinated fillets, trout jerky, but also a non trout product, pimento goat cheese that pairs perfectly with our hickory smoked trout.

Sunburst has perfected a cold smoked Scottish Trout using only top quality fillets for their new presentation. These preparations were practical only after adapting their production to a much larger trout. The resulting large trout are similar in look to salmon, but milder and more delicate.

Our products are some of the cleanest and healthiest on the market. But non-GMO, organic, low calories, high protein...these things mean nothing if it tastes terrible. To be honest, we don't blame the other snacks out there. What else do you sell people on when your products taste like dirt? Dirt is also, we might add, a 100% organic, non-GMO, no added sugar ingredient. ;) If you're as obsessed with taste as us and understand that creating the best-tasting foods on the planet requires a dash of salt, sugar, and fat, then we'd love to have you try our products. We promise they'll put a smile on your face. And if not, no worries. But please, always eat what makes you happy. Because life's too short to eat dirt.

Larry Monahan was the owner of a restaurant in Wakefield, Virginia. It was the fall of 1949 and the local peanut crop would soon be harvested. A peanut broker came to him and suggested he start roasting and promoting the local cash crop. Larry, or Daddy-O as he was known, came up with a recipe to roast the peanuts using a process of soaking in hot water before oil roasting. The result was a super-crunchy, irresistible peanut that would soon change the snack nut world forever. Our products are still made with the same time-honored recipe that has made our nuts famous for over 70 years. Thanks Daddy-O for giving us this to share with the world!

Craft Soda - Farm to Can

From starting with just two hives to expanding to hundreds, we have a deep appreciation for honey and the way it enhances our products. When we began experimenting with making sodas towards the end of 2023, we didn't fully grasp the potential or the impact that honey would have on the final drinks. To our delight, we discovered that the sodas were incredibly delicious.

Our company has always been committed to using REAL ingredients, in sodas we use organic cane sugar, raw honey, and natural flavors derived from fruits, roots, and plants. We believe that your body deserves nothing less than REAL food. We recognize that there is a trade-off - our beverages contain calories because REAL food contains calories; that's just how it works. However, we also believe that real ingredients yield authentic flavors, and this is of utmost importance to us. We hope that you appreciate the REAL difference. - Wehrloom Honey
